

South Australia's peer sex worker organisation

Dear Lower House MPs,

We the undersigned organisations, write to you to express our strong support for the *Statutes Amendment (Decriminalisation of Sex Work) Bill 2015* in South Australia.

As you will be aware on the 6 July 2017 the South Australian Upper House voted in favour of the *Statutes Amendment (Decriminalisation of Sex Work) Bill 2015* with a resounding majority of 13 to 8 in favour of the Bill.

The sex industry in South Australia is one of the most criminalised and has some of the toughest penalties in the country. The amendments proposed in the Bill will make important reforms to the *Criminal Law Consolidation Act 1935*, *Equal Opportunity Act 1984*, *Spent Convictions Act 2009*, *Summary Offences Act 1953*, and *Return to Work Act 2014*. These amendments will decriminalise sex work, prohibit discrimination against sex workers, allow for certain sex work convictions to be spent, and provide sex workers with access to the same rights and protections as other workers.

The Bill will now be debated in the Lower House of State Parliament. To ensure the Bill protects the rights of all sex workers, including some of the most marginalised and vulnerable sex workers, **it is crucial that the Bill pass without amendments.**

The Bill has already received attention and praise nationally and internationally, as it is seen by many to be the best framework to regulate the sex industry and protect the rights of sex workers, resulting in positive, cost effective outcomes for the government and the entire community. If passed in its current form, South Australia will be a world leader in safeguarding the rights and wellbeing of all sex workers, setting the precedent for the international community with this ground-breaking legislation.

Decriminalisation of sex work is supported by the United Nations, UNFPA, UNAIDS, Amnesty International, the World Health Organisation, the International Labour Organisation, Global Alliance Against Trafficking in Women, The Lancet, Global Network of Sex Work Projects, and sex worker organisations around the world as the best practice model for sex industry legislation.

- Decriminalisation allows sex workers access to industrial rights mechanisms like workplace health and safety legislation, and industrial relations legislation, ensuring safer working environments.
- Criminalisation and criminal records create barriers for those sex workers who may wish to find alternate employment.

- Criminalisation undermines health promotion work of agencies such as SIN, a health promotion project aimed at supporting the current high standards of sexual health amongst sex workers<sup>1</sup>.
- Decriminalisation ensures that sex workers can report to the police without fear of being arrested.
- There is no evidence that decriminalisation increases the size of the sex industry<sup>2</sup>, street-based sex work<sup>3</sup> or trafficking<sup>4</sup>.
- Sex industry businesses in decriminalised environments have minimal to nil amenity impact<sup>5</sup>
- Licensing models promote the development of a two-tiered industry whereby many are excluded from operating legally, often because meeting the requirements of licensing is excessive or unreasonable<sup>6</sup>, reducing the capacity of law enforcement to investigate crime.
- Decriminalisation reduces police corruption and increases transparency of the sex industry<sup>7</sup>.
- Criminalising clients (also known as the Swedish or Nordic Model) adversely affects sex workers and criminalises friends, family and other sex worker support structures.<sup>8</sup>

The full decriminalisation of sex work as represented by *the Statutes Amendment (Decriminalisation of Sex Work) Bill 2015* is the best model of sex industry regulation for the rights, health and safety of all sex workers. These outcomes cannot be assured under any other model. For these reasons, we strongly urge you to vote in support of the Bill in the lower house.

Regards,

 Scarlet Alliance, Australian Sex Workers Association	 Action for Reach Out, Hong Kong	Democratic Republic of the Congo
